INTERMEDION LIBITARY TRIBUNG L FOR THE PAR MAST

THE UNITED STATES OF AMERICA, et al | AFFIDAVIT OF | VS -

/R. I sedeo et al

- I was Minister of Education in both I'UVI and S'.ITO
 Cabinets from December, 1931 to May, 1934. Therefore while Mr. /R MI was Minister of War in both
 cabinets, I was in the same cabinets as one of
 his colleagues.
- were confidential with each other and they often had discussions in cabinet meetings. I remember one meeting during the period of our association, although I am not certain, at this time, of the date but I know it was a meeting for the compilation of the budget and where Mr. This Mush said "his soon as the armaments are completed the Military Group (he meant the hamy and the Mavy) turns bellicose:"

 (he meant the hamy and the Mavy) turns bellicose:"

 (he meant the completion of the minimum defensive demands is the completion of the minimum defensive armament to be able to avoid var, not the one of such extent as would enable it to initiate war against other countries. Furthermore I have tried to make the hamy Mis M jesty's army based on morelity by de-Prussianizing them and as I have often explained this to you I ask you to retract what you have just said." Then there was a sudden animation of talk.
 - of speech. In those days some quarters of the Army were nervous about the then current situation. In TANHANI would tell the Var Minister what he had leard as remore about the Army and I remember on one occasion he asked Mr. TANHANI to cooperate with him in his endervor to quell the over zealousness of the young officers.
 - 4. On reading some part of H'R'D's memoirs, I know his description is not accurate. It contains much of his own wishful narration and cabinet meeting are not always faithfully reported in these memoirs.
 - 5. At the cabinet conference held in the middle of Merch, 1932, a decision was reached not to make immediate recognition of Manchukuo, but the reason for this decision was not because it was feared to be an act of violating the Nine Power Treaty, to be an act of violating the Nine Power Treaty, but because they came to an agreement that it would not be too late if they made the recognition after seeing the further development of the situation of Manchukuo which was difficult to torosee at that time.

- 6. Wer Minister RACI was thoroughly in favor of international cooperation and was not an advocator of isolationism.

 At the cabinet meeting regarding our withdrawal from the League of Nations the War Minister did not make any active utterance. He left all the deliberations to the Foreign Minister but he was always counselling him to observe international treaties.
- 7. In a preparatory talk about the proposal of the RussoJapanese Non-aggression Treaty, no cabinet member
 opposed it. But we hesitated to comply with it at once,
 as we could not fully understand the Soviet's true
 intention, for in those days the 3rd International's
 anti-Japanese activities were vigorous. We decided
 in such a way as to comply with the proposal after
 various opinions were exchanged between Japan and
 Russia. Mr. First had no opinion different from that
 of any other cabinet member about it so he did not
 make any special utterance at the conference.

In secondance with m conscience I sweer to tell the whole truth, withholding nothing and adding nothing.

H.TOY.M. Ichiro (sec1)

On this 30th day of January, 1948 at Monoyana, teni City

Dependent: Drtoyens Ichiro (sorl)

I, Masucka Tokuaki, hereby certify that the above statement was sworn to by the deponent, who affixed his signature and seal thereto in the presence of this witness.

On the same date It Honoyema, Atami City

Witness: Fraucke Takaaki (Sorl)
